

Integrated Catalytic **Recycling** of
Plastic Residues Into Added-Value
Chemicals

NEWSLETTER 3 – June 2020

iCAREPLAST is delighted to conclude the 1st Project Period

Welcome to the **iCAREPLAST** newsletter!

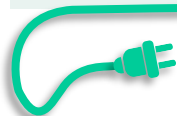

This is the third edition of our semi-annual newsletter series.

This SPIRE project started in October 2018 and has received funding from the European Union's Horizon 2020 research and innovation programme (G.A. N° 820770).

iCAREPLAST addresses the cost and energy-efficient recycling of a large fraction of today's non-recyclable plastics and multi-layered films. The process combines chemical routes (pyrolysis, catalytic and separation steps) to produce valuable chemicals.

Please visit the website in order to learn more about the **iCAREPLAST** project in general, as well as find more detailed information on upcoming activities: <https://www.icareplast.eu/>

Your **iCAREPLAST** Team

This project has received European Union's Horizon 2020 research and innovation funding under grant agreement N° 820770.

iCAREPLAST Meetings

All partners met in Twente (NL) to have the Plenary Meeting at M12. The Review Meeting took place online last month with great support and collaboration from the whole consortium. Learn more about the meetings [here](#).

Interdisciplinary Platform for Sustainable
Plastics towards a Circular Economy

iCAREPLAST joined SusPlast

iCAREPLAST joined [SusPlast](#), an interdisciplinary platform for sustainable plastics towards a circular economy formed by projects and experts from CSIC, the Spanish Research Council.

Upcoming Events

- 2nd Advisory Board Meeting → 15th June 2020, online
- [Plastics Circularity Multiplier Conference](#) → 14th October 2020, Brussels
- **Chemical Recycling of Plastics Workshop: iCAREPLAST SOLUTION & PERCEPTION** → Autumn 2020. Participation is free of charge. [Flyer and Registration Form available](#).

This project has received European Union's Horizon 2020 research and innovation funding under grant agreement N° 820770.
